

Greetings!

Welcome Water Out Colorado Springs!

Jim and Elsa Miller have owned Duraclean Master Cleaners for 27 years and this week they joined the Water Out network. We have had the pleasure of meeting Jim many times over the past several years at industry events and Xtreme Team classes and presentations at Bolden's Hydro Lab and we are very excited to now have him in our network of contractors.

Matt Plowman, Mitigation Manager and John Wiggins, Safety Coordinator and Lead Tech at Duraclean Master Cleaners came to NJ earlier this week for training. Matt is a Master Restorer and Mold Specialist and John is working on his Journeyman designation. They are both looking forward to adding Water Out to the list of specialty services they offer. Water Out Colorado Springs/ Duraclean Master Cleaners is a full service shop, including Water/ Sewage Mitigation, Smoke Damage Restoration, Mold Remediation and Crime Scene Cleanup.

Matt and John are anxious for their first water loss and expecting great results. The easy set up of the Water Out equipment and the rapid drying will improve their already successful mitigation team.

The guys can't wait to tell their existing customers about their new Water Out trailer. They see big advantages to plumbers, builders and realtors.

Matt and John were good sports on their trip to New Jersey. They traveled with Kelly Cressy to a job where Water Out Coastal is drying hardwood floors. John jumped in and drilled several holes in the floor to test the subfloor and they both helped move the containment. Thanks guys! In return Kelly treated them to some fine NJ diner food and a trip to the Atlantic Ocean and the boardwalk.

Included in the newsletter is a picture of Matt Plowman with President George W. Bush. He had the opportunity to meet the President in New Orleans after Katrina while he was working with Duraclean at a Folgers manufacturing plant.

We are looking forward to many future newsletter stories from Water Out Colorado Springs/ Duraclean Master Cleaners. To learn more about Jim and Elsa Miller and their great staff please visit www.duracleanmc.com.

Congratulations!

Water Out of Vermont/GW Savage Corp used Water Out trailer to thaw and dry frozen house

Tyler Savage from GW Savage in Vermont sent in a photo of a job they did two weeks ago. The home owners went away for two weeks and came home to a frozen house. GW Savages hooked up their Water Out trailer and thoroughly thawed and dried the entire home in six days!

Excellent job guys!

Happy Drying!
