

Greetings!

Water Out Northeast Florida dries rental home in Tybee Island

Water Out Drying Corp
375 Faraday Ave, Jackson NJ 08527
Tel: (800) 848-1761 / Fax: (732) 942-6278
Email: info@waterout.com

Paul Medis of Water Out Northeast Florida sent in a loss they did in Tybee Island, GA. Paul Medis reports, "I received my first call of the New Year from the producer of the ABC television show "Extreme Makeover: Home Edition", David Bohler. David was vacationing in Tybee Island, GA when fireworks from the beach caught the rental home on fire. The fire department completely soaked the home and left one huge, wet mess! David immediately told the owner about the Water Out drying process and called me from the Water Out website to help.

Water Out Northeast Florida dries vacation rental in Tybee Island, GA

Within 60 hours of drying over the weekend the building was ready for work crews to begin the major demolition and restoration process. The major smoke smell was diminished to a very tolerable level and the wood floors are going to be saved. The owner was pleased with our fast results which allowed him to begin the restoration ASAP. Tybee Island is a vacation destination outside of Savannah, GA and demand for the house is high this time of year, the quick response and fast drying will help the owner get the house ready for another vacationing family very soon.

To my fellow Water Out Dealers you will be impressed to know that I did this with 8 Tanks and 12 air movers on generator power!"

Water Out contractors from around the country have been participating in "Extreme Makeover: Home Edition" projects for more than two years. "Extreme Makeover: Home Edition" airs Sundays (8:00 p.m. ET), on the ABC. Thanks Paul for your great work on this project!

Water Out in Canton, Ohio tackles major losses over the Holiday Season

Steve Toohey from Mr. Rapid / Water Out of Canton, Ohio reports that the Holiday Season was a time for drying out homes and apartments after a sub zero blast hit Ohio. Pipes that were unprotected burst and created significant water damage to 21 apartment units in seven different buildings. Water also soaked a home from top to bottom as well as a vacant office complex. In all three situations, Water Out® performed its job and returned the structures to pre-loss condition.
