Water Out in Stormville, NY responds to an emergency call in Bronxville NY

Paul Lanzotti of Zott Construction / Water Out in Stormville, NY sent in a story and photos on a loss they did this winter. Paul reports: "At 11:00pm on a Saturday, we received an emergency call for a frozen pipe burst at a home in Bronxville, NY. We immediately responded, arriving to the jobsite at midnight. After handling all of the plumbing we were able to get authorization to dry the home using our Water Out® unit.

This is a very high end home that included beautiful custom kitchen cabinetry, hardwood floors and granite countertops. The adjuster obviously wanted to save as much as possible. The homeowner, owning their home for only 6 months, wanted to save it also.

We set up the Water Out® unit on Sunday and ran it into Thursday through temperatures averaging 10 degrees outside. As we expected, we were able to dry the entire home, saving the entire kitchen, hardwood floors and all of the surfaces that were not removed. Needless to say, the homeowner had minimal repairs and the insurance company saved tens of thousands of dollars. Water Out® continues to impress all those who witness it."

Thanks for the story Paul. Great Job!

Water Out South Puget Sound in Tacoma, WA dries condo units in Aberdeen, WA

A newsletter favorite, Wally Stoneberg of Water Out South Puget Sound in Tacoma, WA submits a job he did this winter. Wally reports: "Water Out South Puget Sound was called by Dave Rufener of Superior Electric Turnwater in WA. Dave has a rental complex in Aberdeen that was vacant for remodeling. During a cold spell with the heat off two upstairs water pipes broke flooding both the upper and lower units. Several days later a roofer was doing some work on the exterior and heard the noise of running water. When he looked inside he found several inches of standing water in both units.

During inspection of both units we got moisture content readings of 94.1%. We set up our Water Out trailer to dry the larger lower unit first on Monday and it was completely dry by Friday. The Water Out trailer was then set up to dry the second unit on Friday and by Monday it was dry. The insurance company was on hand to see the units both before and after drying and were very impressed."

Once again the Water Out System saves the owner and insurance company thousands in repair cost. Great job Wally!

Upcoming Events!

RIA's 64th Annual Convention and Exhibition returns to one of our attendees' favorite venues, the Wyndham Palm Springs Hotel and Palm Springs Convention Center in sunny California, **March 10-14, 2009**. The Convention provides almost 80 hours of continuing education on the cutting-edge topics cleaners and restorers need to stay ahead of an ever-changing landscape.

Water Out is thrilled to be exhibiting again this year. Make sure to stop by **Booth #324** to get the details about our special offer honoring the 64th Annual event.

Happy Drying!

**"A leader has the vision and conviction that a dream can be achieved. He inspires the power and energy to get it done."
